# OUR STORY

We care about the smallest details and believe that every daily action can have an impact.

In 1999, Logi-Pack Malpak Sp. z o.o. was established. Its founder noticed the growing demand for innovative solutions in the field of packaging, logistics and storage. By combining modern technologies with many years of experience, Logi-Pack quickly gained recognition in the industry, offering comprehensive packaging and logistics services.

Over the years, thanks to the consistent development and commitment of the team, the company began to conquer larger and larger markets, which inspired the founders to think about the next steps. In 2022, after conducting detailed market analyses and identifying new trends, it was decided to expand the business to new segments.

As a result, in 2024, a new company was established - CandyMBK.

The mission of this company was to offer products that not only met the needs of customers, but also fit into the global trend of sustainable development and ecology.
